Letter—from S. B. Murray, Esq., Superintending Engineer, VI Circle.
To—the Chief Engineer for Irrigation.
Dated—Trichinopoly, the 22nd July 1913.
No.—1063 C. E.

I have the honour to forward herewith for your approval and sanction of Government an estimate amounting to Rs. 780 for reconstructing the servants' room (Godown No. 1/1 in register of buildings) attached to the rest-house at Mēlūr. The necessity for the work is explained in the report attached to the estimate.

2. The approximate book value of the existing servants' room is Rs. 400.

3. The new building will be constructed as per plan No. M. 62-A/13 on the same site as the existing building.

4. The rates provided in the estimate are fair and the estimate is recommended for sanction.

Enclosure.

Report to accompany the estimate for reconstructing the Servants' room in Mēlūr rest-house.

	RS.
Amount of estimate	780.

The servants' room which adjoins the kitchen, Mēlūr rest-house, is in a dilapidated condition. The walls are nominally brick in mud but they seem to be mostly mud. They are badly cracked and threaten to fall down. The roof is badly sagged as the timbers are much too light in section and the pan tiles are mostly useless, melting away in the rain.

This estimate provides for demolishing the building altogether and rebuilding it. The basement will be of coursed rubble in chunam and rest coursed rubble in mud. A plan showing proposal accompanies. Any of the old materials that are useful, such as doors, windows, verandah bressummer wall plates will be used again. The approximate cost of the existing servents' room proposed to be reconstructed is Rs. 400.

Data sheet accompanies the estimate.

M. O'Brien,
Executive Engineer, Madura Division.
